MEDICAL CONSENT POLICY (COLTS)

Should an emergency situation arise, the club may act in place of any parent/guardian (loco parentis) should a requirement for the administration of emergency first aid become evident which in the opinion of a qualified medical professional is necessary.

In such circumstances, all reasonable steps will be taken to contact you or the alternative person(s) you have deemed as the emergency contact on the Colts Membership Form.

The club will deem that to the best of your knowledge, your child does not suffer from any medical condition or allergy other than those specified by you in the completion of the Colts Membership Form.

It is your responsibility to inform both the clubs Welfare Officer and/or the Colts Chairman of any changes in your child's welfare that may have an impact on this policy.
